DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Daniel McClure on Thursday, June 8, 2006.

In claim 20, line 1, "semiconductorsubstrate" replaced with --semiconductor substrate--.

Claims 1, 4-24, and 27-31 allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to teach either singly or in combination an image sensor with the size of each microlens increasing as the distance between the microlens to a chip center regarding claim (1) and claim (24); the distance between a center of the microlens and a center of the corresponding sensing area being a function of the distance between the corresponding sensing area to a chip center regarding claim (12) and claim (20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
